WORK EXPERIENCE

Full Stack Developer — APS Matrix / APS Admission Panel

Dec 2024 – May 2026

- Delivered features across 4 live production applications (CRM PropMatrix, Admission Panel, APS Matrix Portfolio, Education Portal), integrating 30+ REST API endpoints using React.js, Next.js, Node.js, Express.js, and ASP.NET.
- Built reusable frontend components that reduced duplicate code and accelerated delivery of new features across projects. ● Implemented secure authentication and authorization workflows, and managed MySQL and MongoDB databases in production environments.
- Diagnosed and resolved production issues in collaboration with cross-functional teams to deliver business-critical features on schedule.

Web Development Intern — CEL (Central Electronics Limited)

Jul 2023 – Aug 2023 ● Built and deployed a responsive web application using HTML5, CSS3, and JavaScript, verified for consistent behavior across multiple browsers.

- Designed a MySQL database schema for secure storage and retrieval of user data, streamlining query performance.

PROJECTS

- Blog Backend API:** RESTful blog platform (Node.js, Express.js, MongoDB, Mongoose) with JWT authentication, role-based authorization, CRUD operations, request validation, and centralized error handling.
- Task Management System:** Full-stack task platform (React.js, Redux Toolkit, Node.js, Express.js, MongoDB) with RBAC, task workflows, dashboards, analytics, notifications, filtering, and pagination.
- Wellness Service Platform:** Booking platform (Next.js, NestJS, PostgreSQL, Prisma ORM) with Swagger docs, Cloudinary integration, authentication, filtering, and pagination.
- E-Commerce Backend API:** E-commerce backend (Node.js, Express.js, MongoDB, JWT, Multer, Cloudinary) with product, cart, and order APIs, image uploads, search, sorting, and pagination.
- Portfolio Website:** Personal portfolio (React.js, Tailwind CSS) featuring an integrated AI chatbot, optimized load performance, and a mobilefirst responsive layout.
